| Respiratory Pr | otection: | Seek professional advise prior to respirator selection and use. |
| | | Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear |
| | | a MSHA/NIOSH-approved respirator. Select respirator based on its suitability |
| | | to provide adequate worker protection for given working conditions, level of |
| | | airborne contamination, and presence of sufficient oxygen. For emergency or |
| | | nonroutine operation (cleaning spills, reactor vessels, or storage tanks), wear |
| | | an SCBA. Warning! Air-purified respirators do not protect workers in oxygen-deficient |
| | | atmospheres. |
| Protective Clot | thing/Equipn | nent: Wear chemically protective gloves, boots, aprons, and gauntlets to prevent |
| | | prolonged or repeated skin contact. Wear protective eyeglasses or |
| | | chemical safety goggles, per OSHA eye and face protection regulations |
